IMPROVEMENT IN < 10 MINS

A controlled study was run to measure if Talk Hiring drives interviewing improvement. We found that about 70% of participants improved their answer to "tell me about yourself" within 10 minutes of using our product. If you like nerding out on statistics, [you can read more here!](#)

USERS LIKE OUR PRODUCT

We send users a 3-question survey after finishing a mock interview. One of our questions is "how disappointed would you be if you could not use this product again?" Almost 40% of users (n=142) report that they would be very disappointed. Pretty awesome given that Talk Hiring simulates job interviews, an activity that makes most people nervous.
